	Pothole
Brief Description (or other problem not listed)	Hi Would like to know the plan for Wildfowl Lane in Stevensville. It's needed pot holes filled for a long time. Instead

of paving or filling them,there was loads of gravel dumped intermittently on the road causing people to zoom down it creating lots of unhealthy dust. The graveling just being pushed aside and the bad paving coming through again. It isn't fixing the problem and we still have pot holes to go around in between the graveled portions. Please tell us what the plan is. This is a terrible road condition. One of the worst I have seen. Thanks
