I am appalled at the idea of building all the low income rentals, **RIGHT BEHIDE OUR HOUSE!** We have neighbors who include deer, turkey, racoon, & bear, who pass through our neighborhood regular, which if the housing is allowed the natural neighbors will no longer be.

Also I see many stand pipes on the proposed land. We have an irrigation well here, the standing water in the well, now August 12, is 4 1/2 feet down, in the spring its much higher, I put in a fence this spring, I dug down about 3 feet and hit mud. Which means water is not far away. If for some reason this project is ok by the county commissioners for a septic, We will be forced to sue the County Sanitation Dept. because we know it it will not pass perk legally do to regulation, and mis represention of the true facts. Our city sewer system, and water system is already at its max. Why should I be forced to pay for upgrades in taxes. Why was this project refused in both Darby and Hamilton? Why is it here in Stevensville now. If you the commissioners don't stop this project and protect the tax payers of this county we will have no recourse than to file a lawsuti against everyone involved.

allowed the natural neighbors who no longer be  
 & deal with a through-out neighborhood...  
 BEHIND OUR HOUSE! We have neighbors who include deer, turkey, racoon  
 I am opposed to the idea of building all the low income rentals, RENT!

Also I see many stand pipes on the proposed land. We have an irrigation  
 well here, the standing water in the well now August 15, is 4.5 feet  
 down, in the spring it was higher, I put in a fence this spring I dug down  
 about 3 feet and hit mud. Which means water is not far away. If for some  
 reason this project is ok by the county commissioners for a while. We  
 will be forced to sue the County & Utilities Dept. because we know it will  
 not pass park legally do to regulation, and the reputation of the true facts.  
 Our city power system, and water system is already at its peak. Why should I  
 be forced to pay for upgraded in taxes. Why was this project refused in both  
 Barry and Hamilton? Why is it here in Stevenson now. If you are  
 commissioners don't stop this project and protect the tax payers of this  
 county we will have no recourse than to file a lawsuit against everyone

involved
