Subject: oppose S. 2206

Honorable Commissioners,

Please oppose S. 2206. My son helped the Montana Conservation Corps in monitoring these areas after vehicles were banned. He has seen the benefits of banning motorized traffic and the damage even just one four-wheeled of road vehicle can do and how that damage can last for many years. These areas are finally starting to recover and wildlife absent for many years are finally returning. There are plenty of areas off-roaders can go to; they do not need to be allowed everywhere. Please allow these areas to fully recover and continue to be wild by opposing S. 2206.

Thank you!

Janet Stevens
