Subject: " Protect Public Access to Public Policy Act"

Gentleman,

I would like to suggest a cost saving measure for future public meetings. Publish meeting time, show up early, close the meeting before over 15 people arrive and record in the public record only results with which you agree. Call Senator Daines office for details on how to most effectively implement this policy.

It would be helpful to label the new policy " Protect Public Access to Public Policy Act"

Best Regards

Archie L Thomas
