Hi my name is Kristin Roba that and I'm uploading residents of for valley county I'm calling in may and of that the county commissioners risk in their letter support for Saturday and I'm represented June for take efforts to really star publicly and in the world is daddy areas in Montana the development be billed for written in presented without any voice from the citizen's of Montana that these are supposed to represent and the county commissioners did the same with their letters 40 except that they didn't have a public meeting at which I heard virtually no support cities bill and yet they lied and told our congressman we supported be still can be built a reason in kind of cold showed it very few montanans want these plans unilaterally really if we deserve to have a real voice on this issue to be a part of the product that to decide what what happened HR publicly and.

The commissar's need to look into all interested parties not just there cronies.

Please do the proper thing interest in the letter support thank you.
