Subject: Wilderness Study Area

FYI on my Voicemail, a Julie (?) 546-0404 called to say she lives in Missoula County but use to live in Ravalli County in the 80's. She "supports public lands and the WSA and you guys need to rescind the letter to Daines, listen to your people and get with the program. More people in Ravalli County want the WSA left than those who want it released. She said you are free to call her if you'd like".
