**Subject:** Bitterroot Trail repairs

I sent this message out to the Bitterroot Trail Preservation Alliance Board and other Trail advocates. As you well know many Ravalli County citizens enjoy the health benefits of using the Trail. We all have a responsibility to keep it safe. Thank you for all that you do to serve the citizens of Ravalli County.  
Roger

Great news,

It is my understanding...

That at a recent Ravalli County Commissioner meeting Ed Greef convinced the Commissioners of the need to repair the approach to a concrete bridge deck on the trail. Ed offered to pay for the materials. There was head nodding all around.

The BTPA is currently looking for a Montana licensed and bonded contractor, who meets County standards to do the work.

I, Roger DiBrito, do not condone or support local volunteers making major repairs to the trail surface. I do support the collection litter, trash, tree limbs and repairing/replacing items in the right of way but off of the path surface.

Serious about Cycling.
