

To whom it concerns.

I have worked for the Jackson group contractors for a while now. I'm starting to feel intimidated and not sure where to turn? I know if I say a word to anyone here at Jackson I will be laughed at scolded or fired. I need my position, The problem is Jackson hires a few college grads that were Grizzly football players and they think there it. One person I direct this situation of Bullying and bribing to is Ethan Pateman. Mr, Pateman uses his authority to bully and make subs if they do something wrong buy him beer 6pack or a case. He bully`s some of us as well. He thinks because he`s a Grizzly football player he can do whatever. I`m sending this letter out because I`m scared I could get raped or beaten by the bully I won`t talk to others here at Jackson anymore because I have been told knock it off. Mr. Pateman thinks because he is a Grizzly he can get away with it because his exact words are "us football players can do what we want on or off the field ,and we can do what we want where we work because we are idles." Doug Jackson don`t care he`s been in the criminal world his whole life, He shacked up with "Rick Tabish the ted binion murder and thief's" wife so Mr. Jackson is well aware of the criminal world and at one point I think Mr. Jackson was close bonded with Mr Rick Tabish while Tabish was stealing gold and silver from Binions and hauling it back to Montana,I dare any of you to do some fact checking and see where Jackson stands back when Tabish was running wild.. I don`t like the situation Ethan Pateman brags that he holds up the sub contractors money and laughs as he says he loves to watch them squirm begging for their draws. It`s embarrassing as a Jackson employee to hear that we as a company are so far behind paying our sub contractors and we actually had our Missoula airport job **lien** last year. God Bless Thank any of you that will take notice and stand up to this bullying. Please ask some of the male workers in private their feelings as well please?
