**Subject:** Re: Gianforte " public meeting"

Dan, I reread your email and realized that you were talking about the Congressional Subcommittee Hearing being held at the County meeting room NOT the letter to the AG.

The county is only providing the room for the meeting, we are not conducting the meeting. It is my experience that Congressional hearings do NOT take comment from the public. I've been involved in two hearings in DC and neither provided an opportunity for public comment or participation. If this were a county meeting public participation is required under Montana law. I just thought you should know...

Sorry for the confusion,  
greg
