Hi Glenda,

Please forward this to the rest of the board and place in public correspondence.

Thanks,

Chris

**Subject:** Woodside Cutoff

Dear Commissioner Hoffman:

I am writing in SUPPORT of lowering the speed limit on Woodside Cutoff Road. As you know, there is a multi-use path along Woodside Cutoff Road that is used by walkers, bikers, etc. This pathway crosses the road numerous times, particularly worrisome if you are traveling east on the road. On many occasions, I have been unable to cross the road due to the speed of the traffic on the road. Given this multi-use path, the multitude of houses and the highly used river access point, I think that it is very appropriate to lower the speed limit. Thank you for your attention to this matter.

Kathleen Harder-Brouwer, MD

PS: Larry is at the cabin or he would send his own email horror story of trying to ride on this road. I feel I can safely say he is in favor of a lower limit also.
