Subject: Hughes Creek gate

Commissioners: Thank you for your stand in favor of public access to public lands with regard to the Hughes Creek gate. I understand the perceived conflict with private property rights, but in this case, both the District Court and the Montana Supreme Court agree that the gate should be removed, and public access restored.

I hope that this, and other road-related issues in Ravalli County, will serve as the impetus to develop a comprehensive Road Policy for the county.
