**Subject:** Zoning enforcement

Good afternoon, Glenda:

I was wondering if you could help me figure out how I go about the enforcement of our zoning restrictions for our neighborhood? We are in the Roaring Lion Zoning District (PF-6390), and we have space and bulk requirements of 50 feet from property boundaries. One of our neighbors continues to stack more items within that 50 foot boundary of our properties and we have kindly asked her to cease and desist. Our last notice to her was 9/7/18 and she has not made any contact or effort to correct the situation. According to our zoning information, the county commissioner enforces the space and bulk requirements. Can you please let me know how I can go about this process?
