Subject: road policy, etc.

Commissioners,

We'd like to follow up with a few projects the BCC has begun, but has not, to our knowledge, completed. Specifically, can you give us any updates on:

- * Road policy,
- * Natural Resource Policy rewrite,
- * UM BBER study.

As for the third item, what does the board plan to do with the BBER study? Has it been paid for? Will it be incorporated into the Natural Resource Policy? Is it the intention of the BCC to take public comment on any of these proposals? Have any public hearings been scheduled?

Thank you,
Carlotta Grandstaff
