Subject: Opening WSA's to bikes.

To the Commissioners:

Until Wilderness Study Areas are either designated Wilderness or released from study, mechanized travel in these areas should be prohibited. We are so fortunate to have two Wilderness Study Areas in our County and more than adequate trails for bikes. Let's preserve the WSA's.

We continually need to keep in mind why people live here and why people come to spend time here. These areas are the backbone of where many people in this county make their living, the businesses and industries that stay in business due to the landscape and the activities it provides. It provides many of the taxes needed to keep our county financed. Let's preserve the WSA's.
