To whom it may concern,

The Ravalli County Board of Commissioners has recently discussed, and whole heartedly supports efforts to obtain a grant for the Cardiac Ready Communities (CRC) Program.

Ravalli County is 2400 square miles with a population of nearly 45,000 people. Our citizens live along a fairly narrow, 90 mile corridor along US Highway 93. We are made up of several, small communities, spread over that distance. Our only hospital is located near the center of the valley, in our county seat, Hamilton, Montana.

The Board of County Commissioners appreciates the opportunity for funding which will ultimately improve outcomes of our citizens having a cardiovascular emergency.

Respectfully,

Chris Hoffman, Vice Chair

Ravalli County Commissioner
