Dear Mr. Burrows,

There was an article in the April 3rd edition of the Bitterroot Star titled "County Denies Claim For Damages" that I would like to address. My wife and I live along the section of the road in question and are directly affected by it. This little section of road that has been proven to have existed well into the last century has become a serious issue for many of us who live in this area. We do not understand why a small handful of people are so vehemently against this road section. It benefits all of us here.

I want you to know that many of us neighbors along this section of road are in favor of it and view it as an improvement. It provides an added measure of safety for all of us since it provides a second route of access in case of emergencies. All of us along this road, including Mr. Magruder, will someday have to agree on how to maintain the entire road (Teddy Bear and Northview). That's on us and hopefully we will be able to have some civil discussion on it. Until then, we would like to be informed of any public meeting or any action regarding this road, as our views need to be represented as well. If you would please keep us "in the loop" as to upcoming meetings or discussions we would greatly appreciate it. Thank you for your consideration and feel free to call us if you have questions.

Respectfully,

Blaine and Sue Billman
