Subject: RE: road condition

Michelle,

Thank you for bringing this to our attention. The last couple of years have been brutal on our road system. Honeyhouse is not scheduled for paving until 2023 on our current schedule. We are working to get ahead of schedule. Realistically we will not be able to get far enough ahead to pave Honeyhouse this year, but will work to get it bumped up from the 2023 paving schedule.

Thanks,
Jeff

Subject: road condition

Hello,
Please consider that the section of Honey House Lane north of Willow Creek be paved this year, instead of just being repaired. The road is in extremely poor condition. We have lived on Honey Well Drive, off of Honey House, for 16 years and Honey House has only had the potholes fixed since we've lived here. I've gotten 2 flat tires from the road condition in the last year. Please consider paving this entire section of road (north from Willow Creek to Quast).
Thank you for your consideration.
Michelle Gross
