Subject: RCEDA support

Dear Commissioners, As a local company that has greatly benefited from Julie, John and the RCEDA we would like to announce our full fledged support of Julie Foster and the work she has accomplished. The REEDA is an important part of job growth that this county desperately needs and Julie and John do just that. By showing local businesses what funds, grants and loans are available on the State and local level you (commissioners) would be doing a disservice to the whole community by not funding this agency at the level it requires to operate. Please support Julie and the RCEDA as they are necessary part of this county's continuing growth.

Thank you in advance for your continued funding of this vital asset.

On behalf of Larry Lockhart and all the employees at Freightmonster.com
