Memorial Day Weekend on the Bitterroot National Forest

Hamilton, Montana (May 21, 2019) – Memorial Day weekend marks the traditional kickoff of the summer season. The 1.6 million acre Bitterroot National Forest offers unmatched recreational opportunities including nearly 250 campsites in 26 campgrounds, hiking on more than 1,800 miles of trails, boating, biking, horseback riding and more.

Forest officials hope visitors will incorporate the following safety tips, along with the status of campgrounds, trails and roads, into their adventures during the upcoming Memorial Day weekend.

Key Safety Messages:

- Be prepared for changing weather conditions. Temperatures at night are still cool and isolated showers are in the forecast.
- Many campgrounds and hiking trails are located near streams that are running extremely fast and high. Please be cautious around flowing waters and especially at creek crossings.
- Expect heavier traffic than normal on forest roads and trails over the holiday weekend. Drive defensively and notify the Forest Service of any flooding conditions, plugged culverts, downed trees or road damage, so repairs can be made.
- Stay away from soft and muddy roads as this is unsafe and can damage the roadbed, leading to expensive repairs. Driving around snow drifts can damage vegetation and soil.
- Please stay on designated routes. Free Motor Vehicle Use Maps (MVUM) are available at all Bitterroot National Forest offices. The maps show designated routes for motorized recreation users.
- Bring potable drinking water as some campground water systems have not been opened yet.
- Never leave a campfire unattended and make sure your coals are cool to the touch before you leave.
- Be extremely careful when traveling and camping around areas of dead trees including burned areas or beetle killed patches.

- Contact your local Forest Service office to find out if your favorite campground is open. See list below of campgrounds/recreation sites. Please contact the appropriate Ranger District for the latest updates and conditions.

There is a 16-day stay limit for the Bitterroot National Forest - except for the portion of the Frank Church Wilderness in Idaho.

A Food Storage Order is also in place for the Anaconda-Pintler Wilderness, located on the Bitterroot and Beaverhead-Deerlodge National Forests. The purpose of the food storage order is to minimize adverse interactions between bears and humans.

The Bitterroot National Forest offers visitors a unique recreational experience at one of our rental cabins and lookouts. There are three rental lookouts that provide stunning views of the Sapphire, Bitterroot, and Anaconda Pintler mountain ranges. Four rustic cabins offer a serene and relaxing getaway. Reservations can be made 6 months in advance at www.recreation.gov.
